## Ahmed S. Elsheikh, MBA Senior R&D Consultant, SECC

### Business in brief:

As a “Senior R&D Consultant” in SECC, Ahmed helps organizations achieve the success they deserve by doing better “Digital & Agile Business”. Ahmed has a wide exposure to “Digital Transformation” strategies & technologies such as Enterprise Architecture, Analytics, Blockchain, DevOps, Innovation Management, Agile Product Management, Quality Management and Operational Excellence.

I have more than seventeen years of experience and helped many organizations, in Egypt & Gulf (Saudi Arabia, Kuwait, UAE & Syria), enhance their capabilities & achieve higher performance levels. I have previous experiences as systems analyst/designer, project manager, QA manager and finally as Senior Quality Consultant. Currently, focusing on research and development activities related to the new emerging and disruptive trends/technologies such as Digital Transformation, Agile Transformation, Smart Education, Blockchain, Internet of Thinking (IoT) & Innovation Management. Furthermore, I provided Consultancy, Training and Assessment services using many technologies including TOGAF 9.1, COBIT5, CMMI-DEV & CMMI-SVC, CMMI High Maturity Technologies, Lean Six Sigma, SEI-Team Software Process (TSP), Statistical Performance Modelling & Statistical Process Control), Disciplined Agility , Agile/Lean Methodologies, High Performance Technologies, ITIL & TQM.
