

# BIO

---

**Name: Reham Ahmed Saleh**

**Title: Quality Expert**

## **Business in brief**

A dynamic Consultant who leads and delivers rapid strategic business values. Experience across companies in various markets, Agile mindset oriented; focused on customer satisfaction & Team Building, with +15 years of experience in the field of software development and business of information technology.

I'm a Scrum Master and Agile Trainer either Scrum or Kanban; I have practical and thorough experience in Scrum Agile led many teams to a successful Agile Adoption. I have personally lead Agile Adoption/change management, in a big Company that I have been working with before.

Certified Scrum Master from Scrum Alliance

Certified Product Owner

I help organizations doing better "Digital & Agile Business" using wide exposure to "Digital Transformation" strategies, business models and technologies such as Enterprise Architecture as well as "Agile Transformation" methodologies.

Certified Togaf 9.1

One of Cairo DevOpsdays Organizer and speaker

<https://www.devopsdays.org/events/2018cairo/welcome/>

I'm also a Process Improvement fanatic! I have big enthusiasm to be a pioneer in incorporating Process Improvement into all business and software operations. My work experience combines mentoring, coaching, training, and assessing software development professionals / companies on Six Sigma, CMMI, Innovation, Project Management, as well as Software Design
